Planning and Scheduling in Manufacturing and Services

Pinedo is a major figure in the scheduling area (well versed in both stochastics and combinatorics) , and knows both the academic and practitioner side of the discipline. This book includes the integration of case studies into the text. It will appeal to engineering and business students interested in operations research.

Plant Breeding Reviews

Plant Breeding Reviews is an ongoing series presenting state-of-the art review articles on research in plant genetics, especially the breeding of commercially important crops. Articles perform the valuable function of collecting, comparing, and contrasting the primary journal literature in order to form an overview of the topic. This detailed analysis bridges the gap between the specialized researcher and the broader community of plant scientists.

Planning a Life in Medicine

A life in medicine is something that many dream of but few achieve. The tests students face—both literal and figurative—just to get into medical school are designed to weed out the weak. In *Planning a Life in Medicine*, the experts at The Princeton Review will help you succeed in a premedical program, score higher on the MCAT, meet the challenges of medical school, and ultimately flourish in your medical career. More than just a comprehensive plan for getting into medical school, *Planning a Life in Medicine* is a handbook that will help you to cultivate the skills and habits—such as compartmentalizing knowledge and improving concentration—that will help you along your “path of heart” and serve you well throughout your education and medical career.
