New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Technical Information System Reference Manual

The purpose of this guide is to provide an overview of the usage and capabilities of WTI's (Western Transportation Institute) video surveillance trailers. This manual summarizes the relevant functions of the system as a whole, and of each of the components individually. This manual does not serve to replace or supersede vendor documentation for any of the trailer components. Hopefully, this document will provide an overview adequate to set up, use, and disassemble the trailers for whatever research data collection activities may be required.
