PTD Lecture - PTD Lecture by ProLab Orthotics 2,119 views 7 years ago 15 minutes - Watch this educational video on PTD (adult acquired flatfoot) presented by Larry Huppin DPM, Medical Director for ProLab ...

Physics Linear Forces are Converted to Rotational Forces

Lever Arm (Moment Arm) The perpendicular distance from the line of application of force to the joint axis

STJA Deviation Changes the Length of the Lever Arm

To control STJ pronation, a FFO must act to convert the GRF into an Orthotic Reactive Force (ORF) which acts farther medial to the STJA

To control the Pes Planus type foot, you must increase the ORF on the limited area available medial to the subtalar joint axis

Material Selection: Enough Rigidity to Resist Deformation

PTD Prescription Sample Material: Width
