Repertorio di aperture per il giocatore d'attacco

Alekhine's Controversial Masterpiece Finally in English! For decades, Alexander Alekhine's account of New York 1927 was at the top of the list of works that should have been rendered into English but unaccountably were not. This is unlike any other tournament book ever written. Not only do you have one of the greatest annotators of all time rendering some brilliant analysis, but he melds it with an exceptional agenda, an anti-Capablanca agenda. And since he wrote it after defeating Capablanca in their marathon match, he sounds like a sore loser who became a sore winner. So, this is just a mean-spirited book, right? Nothing of the sort. Alekhine goes beyond elaborate move analysis and offers deep positional insights and psychological observations. Nikolai Grigoriev, in his foreword to the 1930 Russian edition of this book, pointed out how Alekhine broke new ground by underlining the critical moments of each game. Why Alekhine's work was published in German, in Berlin in 1928, and not in English, is unclear. But now, after more than 80 years, it's finally available to the largest audience of chessplayers. It's about time.

Parole chiave per l'informazione bibliografica

La logica degli scacchi è una guida utile tanto ai principianti quanto ai giocatori già esperti. I primi sono accompagnati, passo dopo passo, dalla conoscenza elementare delle regole e del movimento dei pezzi alla corretta impostazione delle linee di gioco. I secondi troveranno materia di riflessione per approfondire le ragioni e la logica che stanno alla base delle tecniche e tattiche più sofisticate. Il manuale, oltre a spiegare i vari aspetti del gioco, si pone infatti come un vero trattato di “logica applicata agli scacchi”. Questo senza escludere il ricorso all’intuizione e alla creatività, essenziali per immettere sulla scacchiera elementi dinamici che aprono la via a varie alternative di gioco, spesso “ugualmente possibili”, e trasformano la partita in uno scontro fra volontà, esaltando la componente agonistica degli scacchi. Certificato dalla Società Scacchistica Milanese, chiaro nell’esposizione e corredato di puntuali illustrazioni, La logica degli scacchi è certamente il più aggiornato e completo manuale italiano sull’argomento, nonché un autentico corso completo, volto a far comprendere, ai vari livelli, la vera essenza del gioco.

L'Informazione bibliografica

Molecules of Emotion is a landmark work, full of insight and wisdom and possessing that rare power to change the way we see the world and ourselves.

Bibliografia nazionale italiana

The 21st Century Edition of Spielmann's Classic Work Austrian Grandmaster Rudolf Spielmann's The Art of Sacrifice in Chess first appeared in the mid-1930s. It was immediately recognized as a classic, a masterpiece that examined the nature of chess sacrifices. In this modernized, 21st century edition, all of Spielmann's original work has been preserved. The antiquated English Descriptive Notation has been

replaced with modern Figurine Algebraic, and German grandmaster Karsten Müller has added his own notes to Spielmann's original text. But the German grandmaster has gone far beyond simply inserting clarifying commentary. Müller has virtually doubled the size of the original work by adding eleven new chapters, including: The Greek Gift Sacrifice Bxh2/7+; Disaster on g7; The Achilles' Heel f7; Strike at the Edge; Destroying the King's Shelter; Sacrifices on f6; Sacrifices on e6; The Magic of Mikhail Tal; Shirov's Sacrifices; and The Fine Art of Defense. There are exercises at the end of each new chapter to help you hone your skill of sacrificing. "Grandmaster Karsten Müller's notes to the original text, along with the new material, brilliantly complements Spielmann's classic work. A welcome addition to any chessplayer's library..." – Garry Kasparov

La difesa est-indiana per il giocatore d'attacco

Hugo Award Finalist: "Story plotting holding much in common with chess . . . An exciting political thriller in the vein of Graham Greene" (Speculiction). In *The Squares of the City*, Brunner takes the moves of a classic championship chess game and uses them as the structure to build a novel about a revolution in a South American country obsessed with chess and dominated by a dictator who sees people as pawns in his game of power and survival. Intriguing premise, dramatic story, future setting, great entertainment. "One of the most important science fiction authors. Brunner held a mirror up to reflect our foibles because he wanted to save us from ourselves." —SF Site

Can you ever forgive the unforgivable? In 1962, Emil Clément comes face to face with Paul Meissner at a chess tournament in Holland. They haven't seen one another in almost two decades. Clément, once known only as The Watchmaker, is a Jewish former inmate of Auschwitz. Whilst there, he was forced to play chess against Nazi guards. If he won, he could save a fellow prisoner's life; if he lost, he would lose his own. Meissner, a soft-spoken priest, was also at Auschwitz. He was the SS Officer who forced The Watchmaker to play...

L'Italia scacchistica Organo ufficiale del Circolo scacchistico fiorentino, dell'Accademia scacchistica di Viareggio e del circolo scacchistico di Bologna

Chess Grandmaster Mihail Marin offers a complete White repertoire with 1.c4, the English Opening, in three volumes. The theory is state-of-the-art with many novelties suggested, but most useful of all are Marin's lucid explanations of how to play the resulting positions. Volume Two covers all Black's replies to 1.c4 except 1...e5 and 1...c5.

New York 1927

The Catalan is a favourite of the greats of chess, and has been used by Kasparov, Karpov and Korchnoi in key matches. This guide focuses on the key plans at White's disposal, and how to exploit the typical errors Black makes when facing the Catalan.

Nuova rivista degli scacchi

Grandmaster Repertoire is a new series of high quality books based on the main lines, written by strong grandmasters. The aim is to provide the reader with a complete repertoire at a level good enough for elite tournaments, and certainly also for the club championship. Grandmaster Repertoire provides a repertoire to last a lifetime. GM Mihail Marin's reputation as a chess author is unsurpassed. In this book he reveals his own white repertoire with 1.c4, the English Opening. Volume One covers 1.c4 e5, and Volumes Two and Three complete the repertoire by covering all Black's other replies to 1.c4. The theory is state-of-the-art with many

novelties suggested, but most useful of all are Marin's lucid explanations of how to play the resulting positions. A repertoire for White with 1.c4 e5 A repertoire that has been tested against grandmasters Written by an award-winning author

La logica degli scacchi

The strange circumstances surrounding the death of the world chess champion and alleged Nazi collaborator Alexander Alekhine, as investigated by a literary grand master On the morning of March 24, 1946, the world chess champion Alexander Alekhine—"sadist of the chess world," renowned for his eccentric behavior as well as the ruthlessness of his playing style—was found dead in his hotel room in Estoril, Portugal. He was fully dressed and wearing an overcoat, slumped back in a chair, in front of a meal, a chessboard just out of reach. The doctor overseeing the autopsy certified that Alekhine died of asphyxiation due to a piece of meat stuck in his larynx and assured the world that there was absolutely no evidence of suicide or foul play. Some, of course, have commented that the photos of the corpse look suspiciously theatrical, as though staged. Others have wondered why Alekhine would have sat down to his dinner in a hot room while wearing a heavy overcoat. And what about all these rumors concerning Alekhine's activities during World War II? Did he really pen a series of articles on the inherent inferiority of Jewish chess players? Can he really be seen in photographs with high-ranking Nazi officials? And as for his own homeland, is it true that the Russians considered him a traitor, as well as a possible threat to the new generation of supposedly superior Soviet chess masters? With the atmosphere of a thriller, the insight of a poem, and a profound knowledge of the world of chess ("the most violent sport there is," according to the Russian world champion Garry Kasparov), Paolo Maurensig's *Theory of Shadows* leads us through the life and death of Alekhine: not so much trying to figure out whodunit as using the story of one infuriating and unapologetic genius to tease out "that which the novel alone can discover."

Nuova rivista degli scacchi

Dr. Fine, both a psychoanalyst and a great chess player of the 20th century, analyzes what sets chess champions apart.

Planning in Chess

Shows you how to start your chess games as dynamically and accurately as the greatest grandmasters in the world.

Molecules of Emotion

A chess book on the openings, aimed at a club audience.

The Art of Sacrifice in Chess

Written by more than 70 scientists from around the world, this publication assesses the state of the environment and the trends in ice and snow-covered regions (the cryosphere). It looks at the significance of climate changes for ecosystems and human well-being, both now and in the years to come, given that changes in ice and snow alter the distribution of the earth's heat and water, and influence regional and global ocean circulation. This publication is an official project of the International Polar Year 2007-2008.

The Squares of the City

Chebanenko's move 4?a6 in the Slav Defence has grown into one of the main systems for Black as it is an extremely flexible and almost universal weapon against the Queen's Gambit. The Chebanenko Slav is very

popular among top chess players, and club and internet players like it as well, because it offers Black solidity and active counterplay in all lines. Victor Bologan is a world-class chess player, writes in a very accessible style and has included many tips, tests and tools.

The Death's Head Chess Club

Acclaimed author and chess grandmaster Mihail Marin presents an opening repertoire for Black against the Open Games. This means providing an answer to 1.e4, but not considering the main lines of the Spanish Opening. This includes openings such as the Scotch, the Vienna, the Spanish Exchange Variation, and even the notorious Kings Gambit. Marin uses his renowned writing skills to explain the ideas behind each move, so Beating the Open Games escapes the standard opening book trap of being a boring list of analysis. Marin has based the book mainly on his own repertoire and reveals many original moves and ideas. After studying this book the reader will not only have an excellent repertoire but also a deeper understanding of chess.

Play the French

An eight-time national chess champion and world champion martial artist shares the lessons he has learned from two very different competitive arenas, identifying key principles about learning and performance that readers can apply to their life goals. Reprint. 35,000 first printing.

Grandmaster Repertoire 4

In an ultimate feat of manipulation, the exceptionally talented chess player Malik is turned into a human pawn in a game of warfare which will decide the outcome of World War II.

The World Chess Championship

In this book, an opening expert provides the reader with a comprehensive repertoire for White, covering every plausible response by Black after the opening moves (1) e4 e5, (2) Nf3 Nc6, (3) Bb5. -- Cover description.

Winning with the Catalan

"Bobby Fischer...The precision and energy that he played with is unmatched in the history of chess." Magnus Carlsen, World Chess Champion Nearly 30 years since his last chess game, Bobby Fischer's fame continues to grow. Appearing in Hollywood movies, documentaries and best-selling books, his life and career are as fascinating as they ever were and his games continue to generate discussion. Indeed, with each new generation of computer, stunning discoveries are made about moves that have been debated by grandmasters for decades. An updated, expanded edition of the 2003 classic, with all 100 games reanalyzed, along with six additional games This book covers the entire career of an American chess grandmaster and eleventh World Chess Champion, going well beyond his My 60 Memorable Games, and includes rarely seen "lost" Fischer games With new insights into what made the enigmatic Fischer play – and act – the way he did International Grandmaster Andrew Soltis played Fischer and also reported, as a journalist, on the American's legendary career. He is the author of many books, including Pawn Structure Chess, 365 Chess Master Lessons and What it Takes to Become a Chess Master.

The English Opening

The first systematic cross-country analysis of snow-reliability of Alpine ski areas under climate change for five countries in the region: France, Switzerland, Austria, Italy and Germany.

Najdorf for the Tournament Player

Cathy Vickers cannot manage to find more than a few days of rest in her hectic (and mortal) life—she barely has time to put the mystery surrounding her father to rest before she finds herself targeted by a group of Ancestor Lu's professional killers! Recognizing she is a serious threat to everyone in her life, Cathy makes plans to leave town. But her friends Emma, Pete, Victor, and, surprisingly, Jun, unite to convince Cathy that they must finish Lu off once and for all to have any chance at a life of peace—mortal or immortal. Meanwhile—unbeknownst to Cathy—Victor has made the ultimate sacrifice with the hope that mortality will bring him closer to a normal relationship with Cathy. But when Victor is seriously wounded and Cathy finds herself attracted to another mortal with similar feelings for her, Cathy's world turns upside down and she is forced to make a decision about her future with Victor. What will Cathy decide, and how will her epic battle with the immortal ancestor Lu play out? Find out in the newest adventure-packed installment of the Cathy trilogy, now available in paperback!

Theory of Shadows

When the laboratory technicians working for Ancestor Lu discover the key to the immortality genetic structure, Victor names it the 'Cathy Key' in honour of his quest to make Cathy immortal. Ancestor Lu humours him. But when events go fatally wrong and a Fortune Teller's grim prophecy comes true, soon a homicide investigation is underway and Cathy, once again, is a little too close for comfort. Cathy's Key is a brilliantly involved thriller, a love story and an entirely interactive experience with further developments to the website, phone numbers and online activity which make this package so unique and special.

The Psychology of the Chess Player

DIVSuperior introduction to most demanding part of chess. Basic concepts of middle game play are systematically and logically presented. Every significant idea is illustrated by well-chosen excerpts from master play, including games by Alekhine, Capablanca, Lasker, Reshevsky, Botvinnik, Marshall, Pillsbury, and other prominent players. 80 illustrations. /div
