Knowing market dynamics is going to be critical for you to have the winning edge you will need to be a successful market participant. This is true for any venture, be it business or sports. The playing conditions are the same for everyone. Then how is it that one sportsperson achieves amazing success

while many others fail to do so? It happens because of that sports person's response to playing conditions were more in sync than other sportspersons. Similarly, financial markets are the same for everyone, but only one Warren Buffett achieves tremendous success, where many others have lost their fortunes. This emphasizes that you can learn as much as you want. But ultimately, it will be your actions that determine the ratio of your success in day trading. If you are standing before a mirror, and you want the person in the mirror to raise its arms, what would you do? Would you force the person in the mirror to raise its arms? Markets will open, trade, and close. But how you react to those market conditions, will define how successful you are in day trading. So, start reading, and start applying what you have learned now.
